Tour of Milan Processing Facility

The group met in the morning at the Milan Processing Facility for a tour of the operations. Gene Cook and Greg Lara led the tour.

Among the topics discussed during and after the tour were: workforce and human resource issues, customers for the plant's product, various processing operations and activities, the variety of products produced at Milan and company-wide, community interaction, and safety practices and training.

The group adjourned at approximately noon.

Respectfully submitted,
Jason Helton
